

## Mug Rug Kit

Kit makes four (4) 4.5" x 4.5" mug rugs

### Kit Includes

- One folded example with diagonal pieces
- One folded example with square pieces (folded as a rectangle)
  
- 4 coordinating fabrics pre-cut into 5" squares; five (5) squares of each fabric.

Instructions are compliments of:

**The choice is yours - do you like the look of the mug rug created using squares or triangles? Or better yet do you want a combination of both?**

- Pull one square from each coordinating fabric and set aside. These will now be referred to as your "backs".
- Fold and iron the remaining squares into the shape you prefer - rectangles and/or triangles.
- Lay your backs out in front of you - right sides up.
- Using 1 each of the four (4) coordinating fabrics; alternate them and arrange your four tops on each of your right side up backs.
- Line up your raw edges. Pin to hold the pieces in place.  
*We recommend approx ¼" in from the raw edges and one pin per shape (square/triangle). See diagram A to the right.*
- Sew ¼" seam allowance all the way around the 5" square.
- Carefully snip all four points to reduce bulk. *See Diagram B to the right.*
- Turn inside out.
- Finger press so seams are completely open. Iron.

Enjoy!
